

TCF IS BUILDING THE PATHWAY

TCF FAMILY LEGACY FOUNDATION is developing a structured pathway to help families with children move from homelessness and housing instability toward permanent housing, self-sufficiency, and sustainable homeownership.

Our work brings together:

- Housing stabilization and permanent housing pathways**
- Food security and essential family support**
- Parent and student mentoring and personal development**
- Homeownership preparation through organizational partners**
- Education, accountability, and family development**
- Strategic relationships with trusted community partners**

We understand that no single organization can address every barrier confronting a family. TCF is building a coordinated network of leaders, businesses, churches, professionals, and community organizations that can contribute according to their unique capacity and expertise.
